**RE: LETTER OF SUPPORT FOR IMADIBA PROJECT**

This serves to confirm that Mr Erhardt Thiel did a debate stimulating installation at Iziko South African Museum. The installation did not only encourage young people and museum visitors in general to engage with each other on critical issues during youth and heritage months in 2018, but it continues to be used as a site for engagement.

The iMadiba installation at Iziko South African Museum featured in print and broadcast media and the artist, Mr Erhardt Thiel, was also invited to engage members of the public on the significance of this very important project for South Africa and the world.

Iziko Museums of South Africa supports this project and encourages like-minded institutions to also participate or contribute towards this project.

Yours in heritage

---

Ms Rooksana Omar  
Chief Executive Officer  
Iziko Museums of South Africa
